

AUSTRALIA TEMPORARY FENCE

MODULAR WELDED-MESH PERIMETER FENCING SYSTEM

Reusable fence panels, removable feet, clamps, stays and gates for construction and temporary perimeter control.

MODULAR PANELS

Fast assembly without permanent foundations

COMPLETE SYSTEM

Feet, clamps, stays, pins and gates

FULLY CUSTOMIZABLE

Panel, tube, mesh, coating and packing

ABOUT EVERSTAR

FENCING MANUFACTURING & EXPORT SUPPORT

MANUFACTURING SINCE 1999

SHIJIAZHUANG EVERSTAR HARDWARE MACHINERY CO., LTD. manufactures steel wire, fencing and construction hardware for international buyers. Our 58,000 m² facility supports mesh welding, tube forming, frame welding, surface treatment, system trial assembly and export packing.

58,000 M² Manufacturing facility	45 LINES Stable production capacity
210 EMPLOYEES Including 25 R&D personnel	10 QC INSPECTORS Panel and accessory checks

BUYER SUPPORT

Australia-style and custom panels • complete accessories • gates • OEM branding • container-loading support

SYSTEM OVERVIEW

PORTABLE WELDED-MESH FENCE

Actual EVERSTAR temporary fence installed with red removable feet and top clamps

RELOCATABLE PERIMETER CONTROL

Each panel combines a welded steel-tube frame and welded-wire mesh infill. Panels stand in removable feet, connect with top clamps and can receive braces or stays where required. The complete line can be dismantled, transported and reused.

FENCE PANEL	FENCE FOOT	CONNECTION & SUPPORT
Tube frame with welded mesh infill	Plastic/concrete-filled, heavy-duty or steel base	Top clamps, stays, ground pins and gates

SYSTEM DESIGN | Panel strength and stability depend on the complete installed system, site conditions, supports and attached coverings.

TECHNICAL SPECIFICATIONS

COMMON AUSTRALIAN-STYLE REFERENCES

PRODUCT ITEM	DETAILS
Product Name	Australia Temporary Fence
Alternative Names	Australian Temporary Fencing, Construction Site Temporary Fence, Portable Mesh Fence
Material	Low-carbon steel tube and welded steel wire
Reference Panel Size	2.1 m high × 2.4 m wide; customized sizes available
Frame Tube	Round tube; 32 mm outside diameter reference or customized
Tube Wall Thickness	Customized according to required strength and design
Mesh Wire	3.0–4.0 mm reference or customized
Mesh Opening	60 × 150 mm reference or customized
Surface	Hot-dip galvanized after welding, pre-galvanized or customized
Optional Finish	Powder coating in selected RAL colours
Connection	Removable top clamp
Feet	Concrete-filled plastic, heavy-duty plastic, steel or custom
Support	Stays, braces, ground pins or approved anchoring
Gates	Pedestrian and vehicle-access options

CUSTOM PRODUCTION | All panel sizes, tube sections, wall thicknesses, wire diameters, mesh openings and accessories can be customized.

COMPONENTS & DESIGN OPTIONS

BUILD THE COMPLETE FENCE SYSTEM

Complete fence line with removable feet, top clamps and support stay

STANDARD PANEL General construction and restricted-area boundaries	HEAVY-DUTY PANEL Thicker tubes, larger wire or added reinforcement	ANTI-CLIMB MESH Reduced footholds subject to confirmed design
POWDER COATED Custom colours and brand identification	PEDESTRIAN GATE Controlled worker access	VEHICLE GATE Single- or double-leaf equipment access

ACCESSORIES

Concrete-filled feet • steel feet • top/security clamps • stays • braces • ground pins • base plates • gate wheels • locking components • shade cloth • debris mesh • warning signs • transport stillages

INSTALLATION & APPLICATIONS

MODULAR SITE ASSEMBLY

INSTALLATION SEQUENCE

1 LAYOUT Inspect site and confirm approved fence line	2 FEET Place bases on stable ground
3 PANELS Insert adjoining frame tubes into feet	4 CLAMPS Align and secure panel tops
5 SUPPORTS Install stays at gates, corners and exposed areas	6 INSPECT Check alignment, clamps, feet and stability

APPLICATIONS

Residential/commercial construction • roads and civil works • demolition/excavation • storage yards • events and festivals • sports venues • car parks • restricted areas • emergency works • rental fleets

REINSPECTION | Inspect after strong wind, impact, relocation or any change to shade cloth, banners or debris mesh.

MANUFACTURING & QUALITY CONTROL

FRAME, MESH, WELD & COATING CONSISTENCY

PRODUCTION FLOW

1 MATERIAL Wire and tube inspection	2 MESH Straightening, cutting and welding	3 FRAME Tube cutting and bending	4 ASSEMBLY Frame and mesh welding
5 FINISHING Cleaning and galvanizing/coating	6 DIMENSIONS Size and squareness inspection	7 TRIAL FIT Feet and clamp assembly	8 PACKING Stacking and loading inspection

INSPECTION CHECKPOINTS

TUBE Diameter and wall thickness	MESH Wire diameter and opening
PANEL Height, width and squareness	WELDS Position, continuity and strength
SURFACE Zinc or powder-coating appearance	ACCESSORIES Feet, clamps, stays and gate function

COMPLIANCE | Any Australian or project-specific compliance claim requires an agreed design, testing and documentation scope.

CUSTOMIZATION & ORDERING

OEM COMPLETE FENCE SOLUTIONS

PANEL Height, width, weight and reinforcement	FRAME Tube shape, diameter and wall thickness	MESH Wire diameter, opening and arrangement
SURFACE HDG, pre-galvanized or RAL powder coating	ACCESSORIES Feet, clamps, stays, pins and gates	BRANDING & PACKING Logo, labels, stillages and panel racks

QUOTE INFORMATION

Panel dimensions • frame tube diameter/thickness • wire diameter • mesh opening • surface treatment • foot type • clamps/stays • gate sizes • order quantity • packing • destination port

LOADING | Panels and accessories can be packed separately in bundles, steel pallets or transport stillages for efficient counting and unloading.

FAQ & SAFETY NOTES

PRACTICAL ANSWERS FOR BUYERS

PRODUCT ITEM	DETAILS
What is Australia Temporary Fence?	A removable welded-mesh system for temporary boundaries and controlled access.
Common panel size?	About 2.1 m high × 2.4 m wide; all dimensions can be customized.
Tube thickness customizable?	Yes. Diameter and wall thickness are selected with the panel design.
Mesh customizable?	Yes. Wire diameter, opening and arrangement can be changed.
Surface options?	Hot-dip galvanized after welding, pre-galvanized or powder coated.
Feet and clamps included?	Available as a complete system with stays, pins and other accessories.
Heavy-duty versions?	Yes. Larger tubes, thicker walls, stronger mesh and reinforcement are available.
Gates available?	Yes. Pedestrian and vehicle gates can match the panels.
Can shade cloth be attached?	Yes, but it substantially increases wind loading and may require added support.
Quotation requirements?	Panel, tube, mesh, finish, feet, supports, gates, quantity, packing and port.

WIND SAFETY | Fence height, feet, stays, ground, exposure, corners, gates and coverings must be evaluated as one installed system.
